- Rainsuits/Raincoats

# Welding Helmets

## Auto-Darkening Welding Helmet

- Offers infinitely variable shade adjustment, depending on the welding application
- Solar cells ensure a continuous power supply
- Auto-darkening filter offers grinding mode, delay switch and sensitivity controls

Model	Part
Shade 5-13	11157490
Shade 10-11	11140124
Shade 9-13	11140125

## Use a BOC Auto-Darkening Welding Helmet

### Avoid Neck Injuries

The BOC Auto-darkening helmet automatically adjusts the lightening or darkening of the filter based on the job. This means that no matter how long or quick the job, you can immediately see what you are working on. You can also keep the helmet down for the whole duration of the task – no need to flip it up, minimizing neck strain.

### Protect Eyes from Injury

The helmet is fixed with a high-quality lens that provides maximum protection from harmful ultraviolet and infrared radiation, at all shades. The lift front comes complete with a clear polycarbonate chipping viewing lens.

### Improve Productivity

Get accurate weld starts every time with the helmet's fast switching time for a great improvement to productivity.

Most manual workers will sustain a hand injury at some point in their lives. Whether it's a minor scratch, splinter or cut, or more serious injuries such as burns or crushed fingers, injuries can be easily avoided. Gloves can also protect against electrical shock.

BOC Canada carries a variety of gloves in natural and synthetic materials, available to protect your hands from heat, flames and sparks, sharp objects, chemicals and dangerous power tools.

### Choosing the Correct Hand Protection

- Know your hand size; gloves come in different sizes; ensure your gloves fit
- Choose a glove recommended for the job
- Always check for general wear and tear, holes and rips before use
- Do not wash your gloves with solvents, detergents or chemicals that can cause harm and damage

## Welder Leather Jackets

Brown, heat-resistant, side-split leather welder's jackets offer good arm and full body protection for welders. Features include: Kevlar® sewn seams, chalk pockets on both arms, large inside pocket, locker loop on collar, three-position adjustable collar, wrist and waist snaps, and reinforcing rivets at all stress points.

Model	Part
S	11041063
M	11041062
L	11041061
XL	11041064
2XL	11041065

## Welder Sleeves

A full arm protective side-split leather sleeve that offers protection against hazards from dirt and sparks.

24" long

Part: 11036883

## Welder Spats

Spats protect your boots and pant legs. The brown, heat-resistant leather spats resist sparks and welding spatter. Features adjustable Velcro® back closures for quick on and off.

Sold in pairs

Part: 11011010

## Welder Leather Aprons

Brown, heat-resistant, side-split leather aprons have a unique crossover shoulder harness that takes the weight of the apron off your neck and quick release snaps on the apron ties. Features include a pocket on the bib and Kevlar®-sewn seams, plus all critical stress points are riveted.

36" long

Part: 11029703

# Rainsuits/Raincoats

## Aquaflex

### Features:

- Three-piece rainsuit designed for intense application
- Reinforced stitching on tension points
- Oxford nylon on 0.35 mm PVC
- Zipper closure on front with large flap and two pockets with Velcro® closures
- Aeration net on both sides (front and back) and under the arms
- Comfortable fit
- Bib overalls with adjustable suspenders
- Pant opening from the ankle to the knee with zipper and Velcro® closure for better adjustment on boots

### Advantages:

- Protects against bad weather
- Chemical-resistant
- Oil and grease-resistant
- Protected closures
- Sealed stitches
- Aeration net on front and back and under the arms

### Applications:

- Fishery
- Agriculture
- Residential and commercial construction
- Public works and services
- Mining
- Forestry
- Petrochemical

### Available Colours:

- Orange
- Yellow

## Aquaflex

### Features:

- Made of PVC/polyester combination
- Soft corduroy collar
- Plastic snap closures
- Large pockets
- Aeration net on front, back and under the arms
- Detachable hood

### Advantages:

- Protects against bad weather
- Chemical-resistant
- Oil and grease-resistant

### Applications:

- Fishery
- Agriculture
- Residential and commercial construction
- Public works and services
- Petrochemical

### Available Colours:

- Blue
- Yellow
