Leave it to the Experts

Linde Sureserve takes the effort out of dispense gas management. Our experts offer the best service and value.

- Regular “pre-planned” deliveries geared to how much gas you use – a constant supply of gas to keep the drinks flowing
- Cylinders connected and empties removed taking the strain out of handling
- Stocks monitored and adjusted for you leaving you free to serve customers
- Expert safety and technical advice for worry-free drinks dispense
- Back-up emergency deliveries so you never run out
- Around-the-clock help and support
- Hands-free, convenient bulk gas service for larger volume users.

Quality Assured

Serving the perfect drink relies on using the purest ingredients. Linde’s Sureserve beverage grade gases give consistent drink presentation and flavour.

- All cylinders tested for corrosion and damage to avoid contamination
- Gas purity and pressure checked at every stage of production and supply to give consistent carbonation – no off-taste or odours
- Mixture accuracy assured for perfect presentation
- It adds up to top quality drinks – for more customers, higher sales, bigger profits.

Beergas is a special mixture of nitrogen and CO₂ designed to correctly carbonate the beer. The reduced CO₂ content of the gas mix maintains the correct carbonation level while the nitrogen pushes the beer from keg to tap. By controlling the carbonation level, foam at the tap is minimized.

Innovative Products

Linde Sureserve offers products and services that meet demands of today's busy hospitality operations!

- Standard cylinder options – providing Carbon Dioxide gas and gas mixtures for dispensing
- Gas blenders producing all gas mixtures from lesser gas types, cutting out cylinder confusion and waste
- Gasgen™ – extracting Nitrogen from the air and blending with Carbon Dioxide for a full complement of dispense gases on site
- Mini-Bulk – Carbon Dioxide vessels for capacity and convenience allow for on-site top-ups so you can keep on serving

Concerned for Your Safety

Linde Sureserve gives you assistance, advice and training to help you ensure the safety of your staff, customers and premises. Designed to give you peace of mind and help with legislative compliance.

- Gas safety training courses on DVD and online make training easy
- Confined Space Risk Assessment Pack help to avoid potential asphyxiation
- Expert surveys – because you can't cut corners with safety
- Safe and sure equipment – like the must-have Cellaguard™ Carbon Dioxide monitor
